A Dramatic Beginning

Oh no! The Normandy is under attack! Who or what do you think has done it? Draw it!

This activity book belongs to
Commander _____ Shepard

Draw your Shepard!

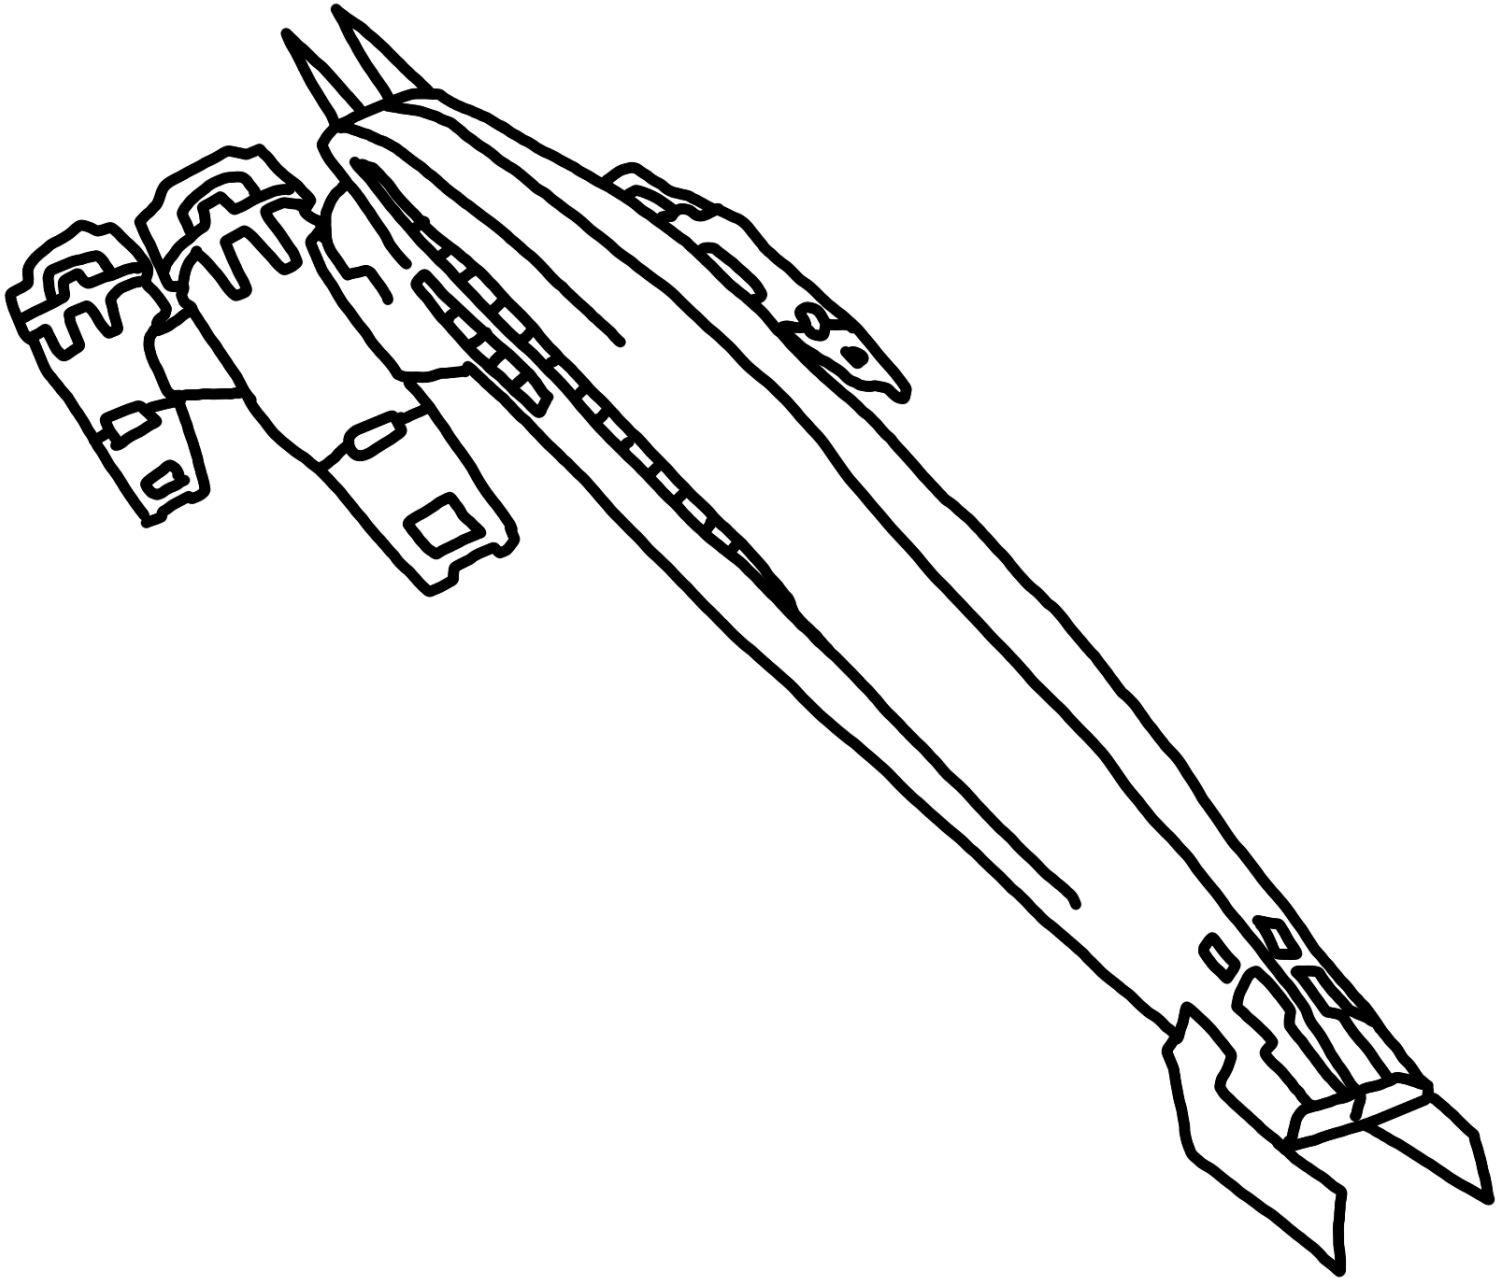

I was born on: _____

I am famous for: _____

True Colors

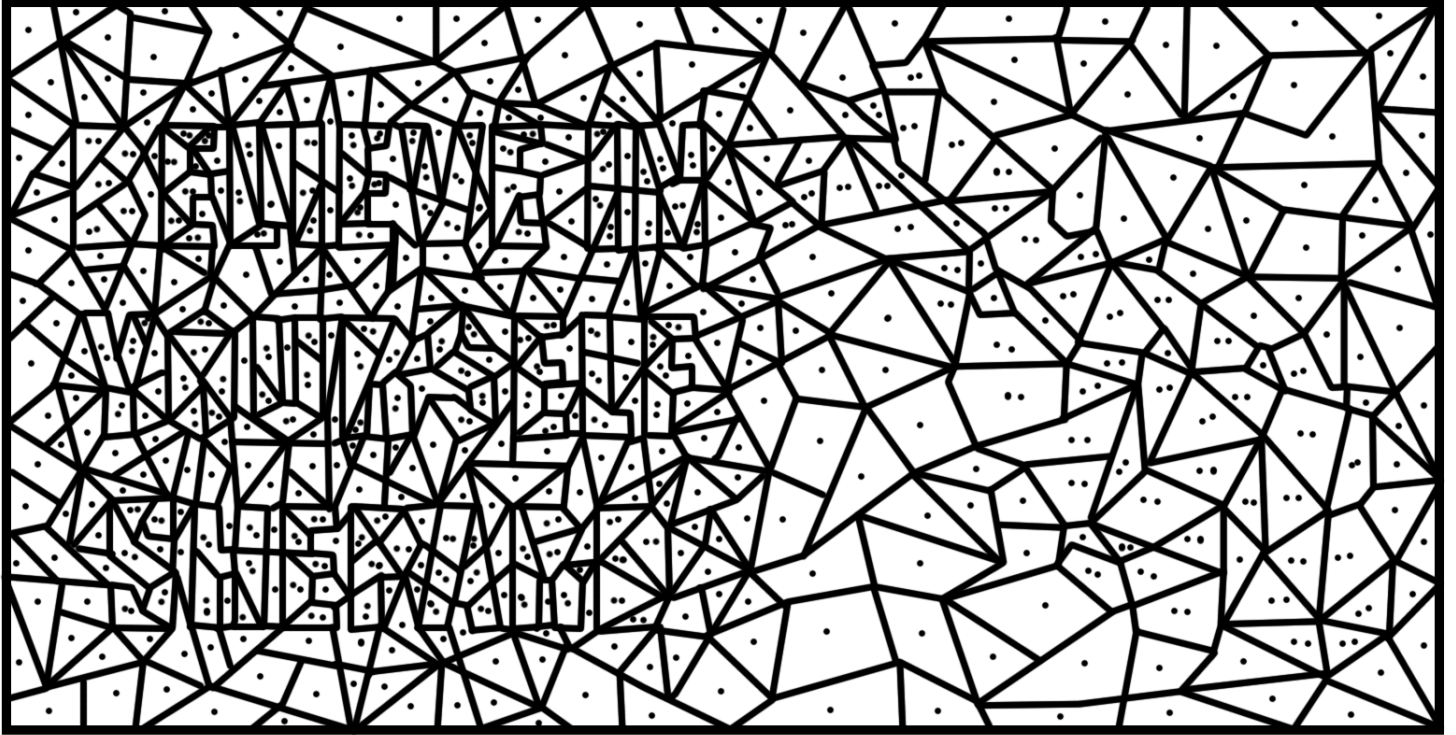

Check out the Normandy SR-2! Cerberus rebuilt it bigger and better, and gave it a Cerberus paint job to boot! Well, that's not going to work. Time to repaint the Normandy!

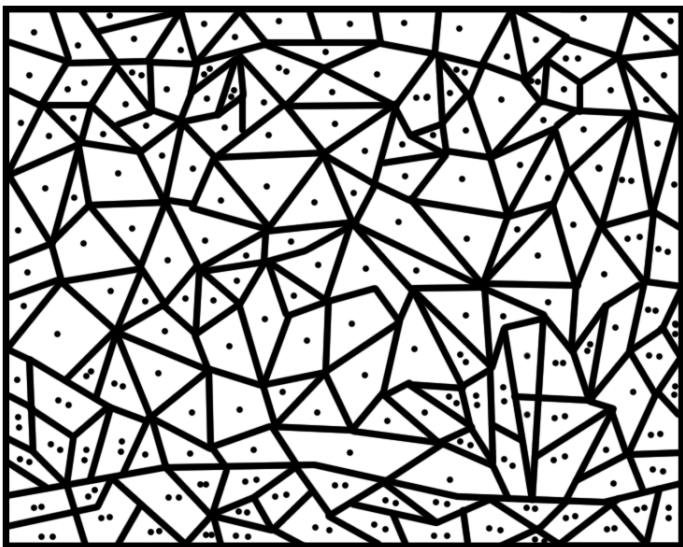

In Your Eyes

There are pictures hidden in these puzzles! Shade **ONLY** the areas which contain

Craft Effects

Some of us love Mass Effect so much we want to spend unreasonable amounts of time creating silly things to increase the amount of Mass Effect stuff in the world! Here are some easy ways you can make Mass Effect stuff in your own home!

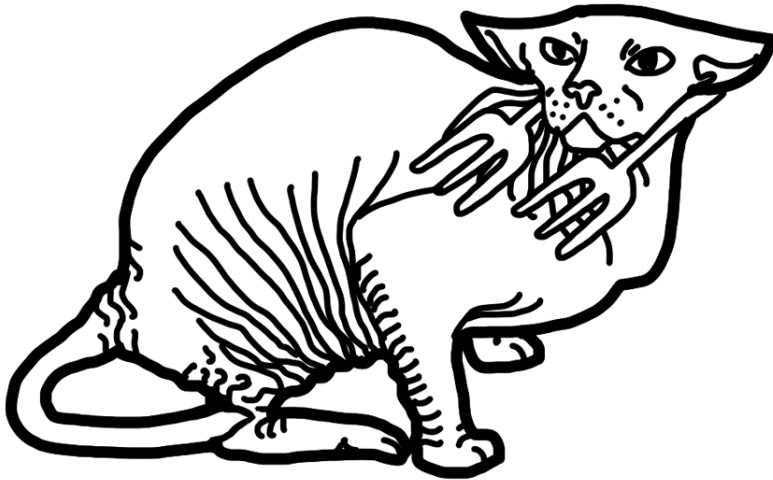

How to draw a krogan:

1. Draw a turtle
2. Give it a mohawk

Make a Normandy SR-2!

1. Make a paper airplane
2. Decorate it with Cerberus logos
3. Upgrade it with rare metals

Create your own turian!

1. Find your/a cat
2. Shave it
3. Glue forks to its jaw

Now you have a life model of a turian, indistinguishable from the real thing!

How to make an asari costume:

1. Be a girl, or possibly David Bowie
2. Eat colloidal silver, enjoy imaginary health benefits until your skin turns blue
3. Shave your eyebrows
4. Kill an octopus, put it on your head
5. Smear its blood on your face symmetrically

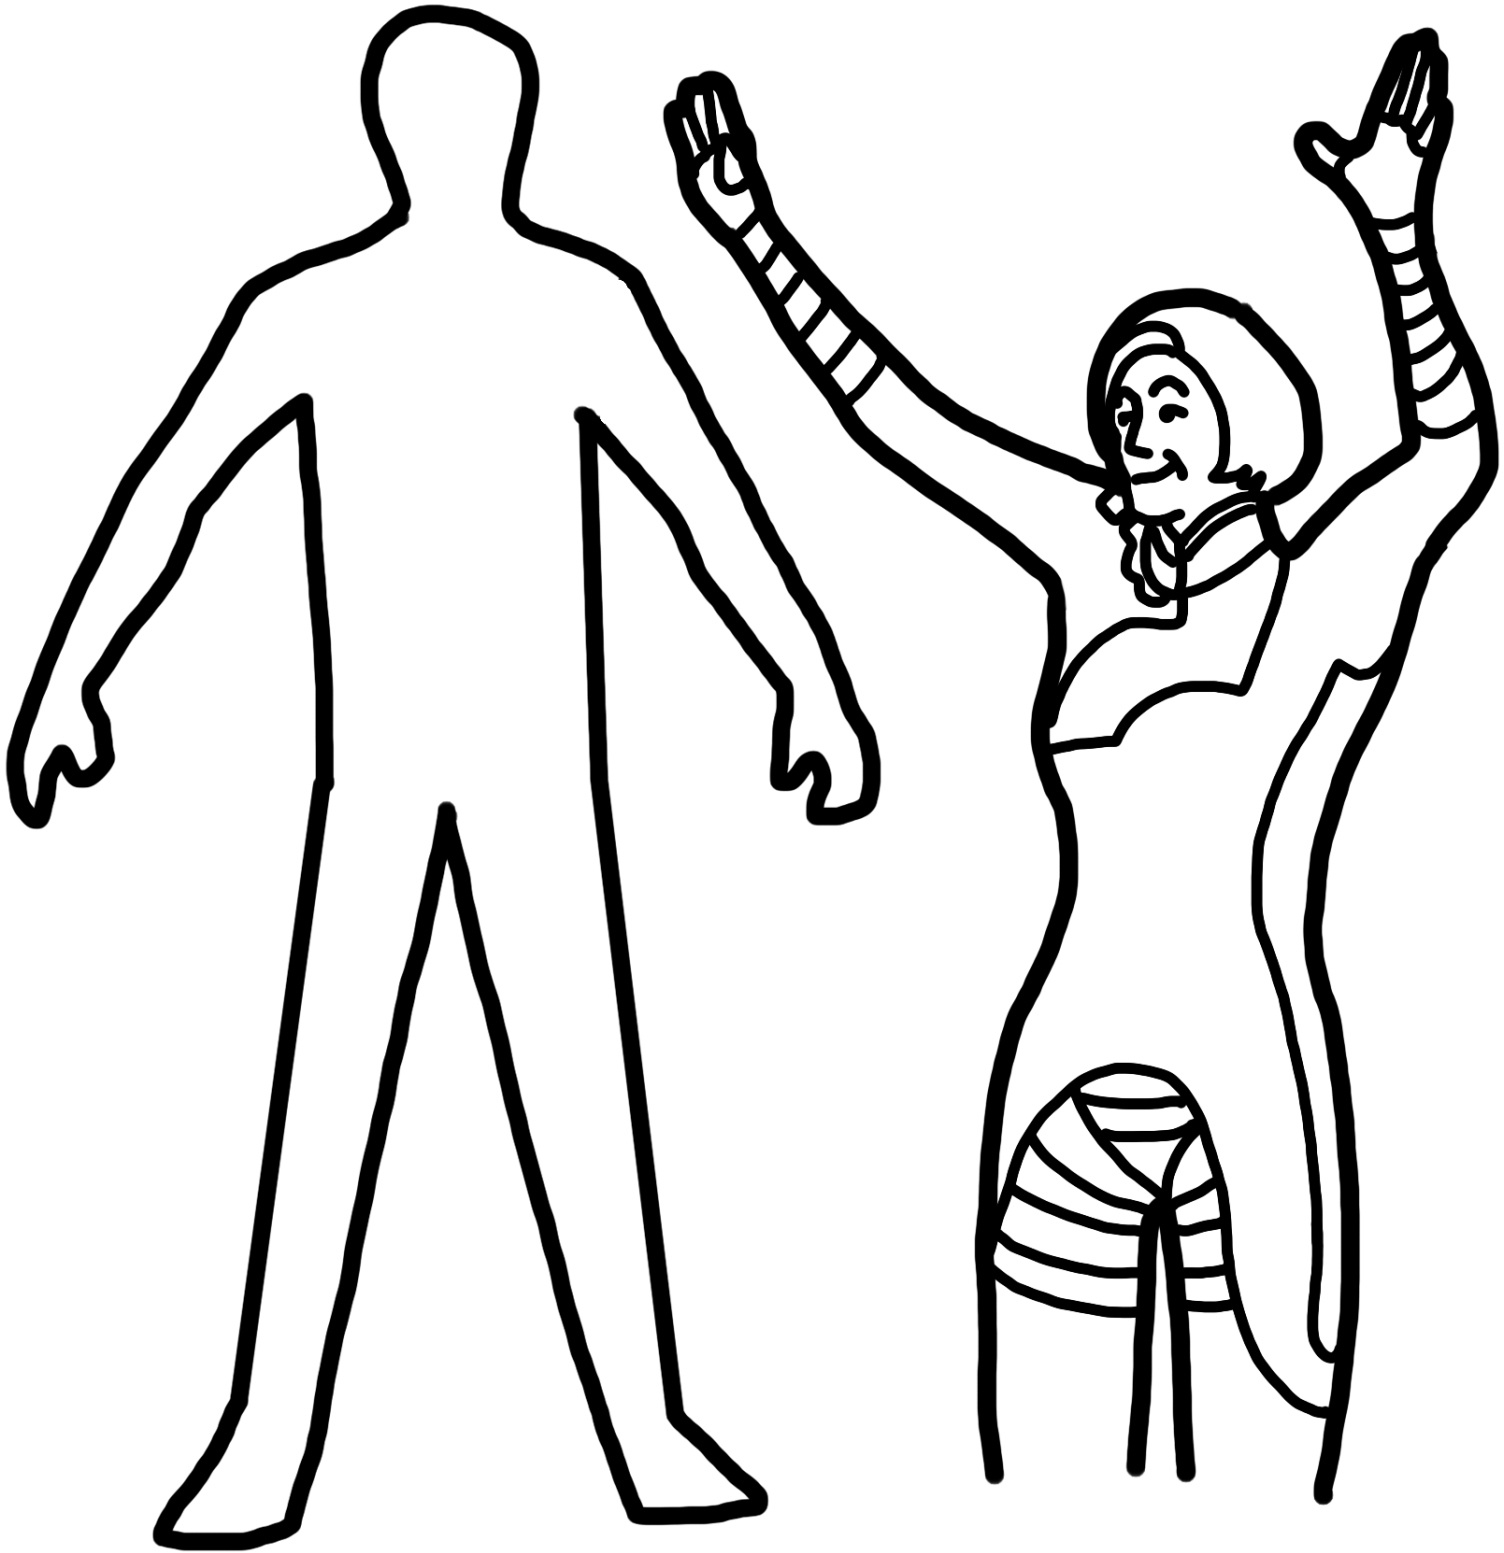

Congratulations! You are now the most attractive creature in the galaxy!

Accident and Emergency

Dr Chakwas has been a little bored and lonely lately, now that she doesn't dispense medi-gel and with the more talkative Mordin on board.

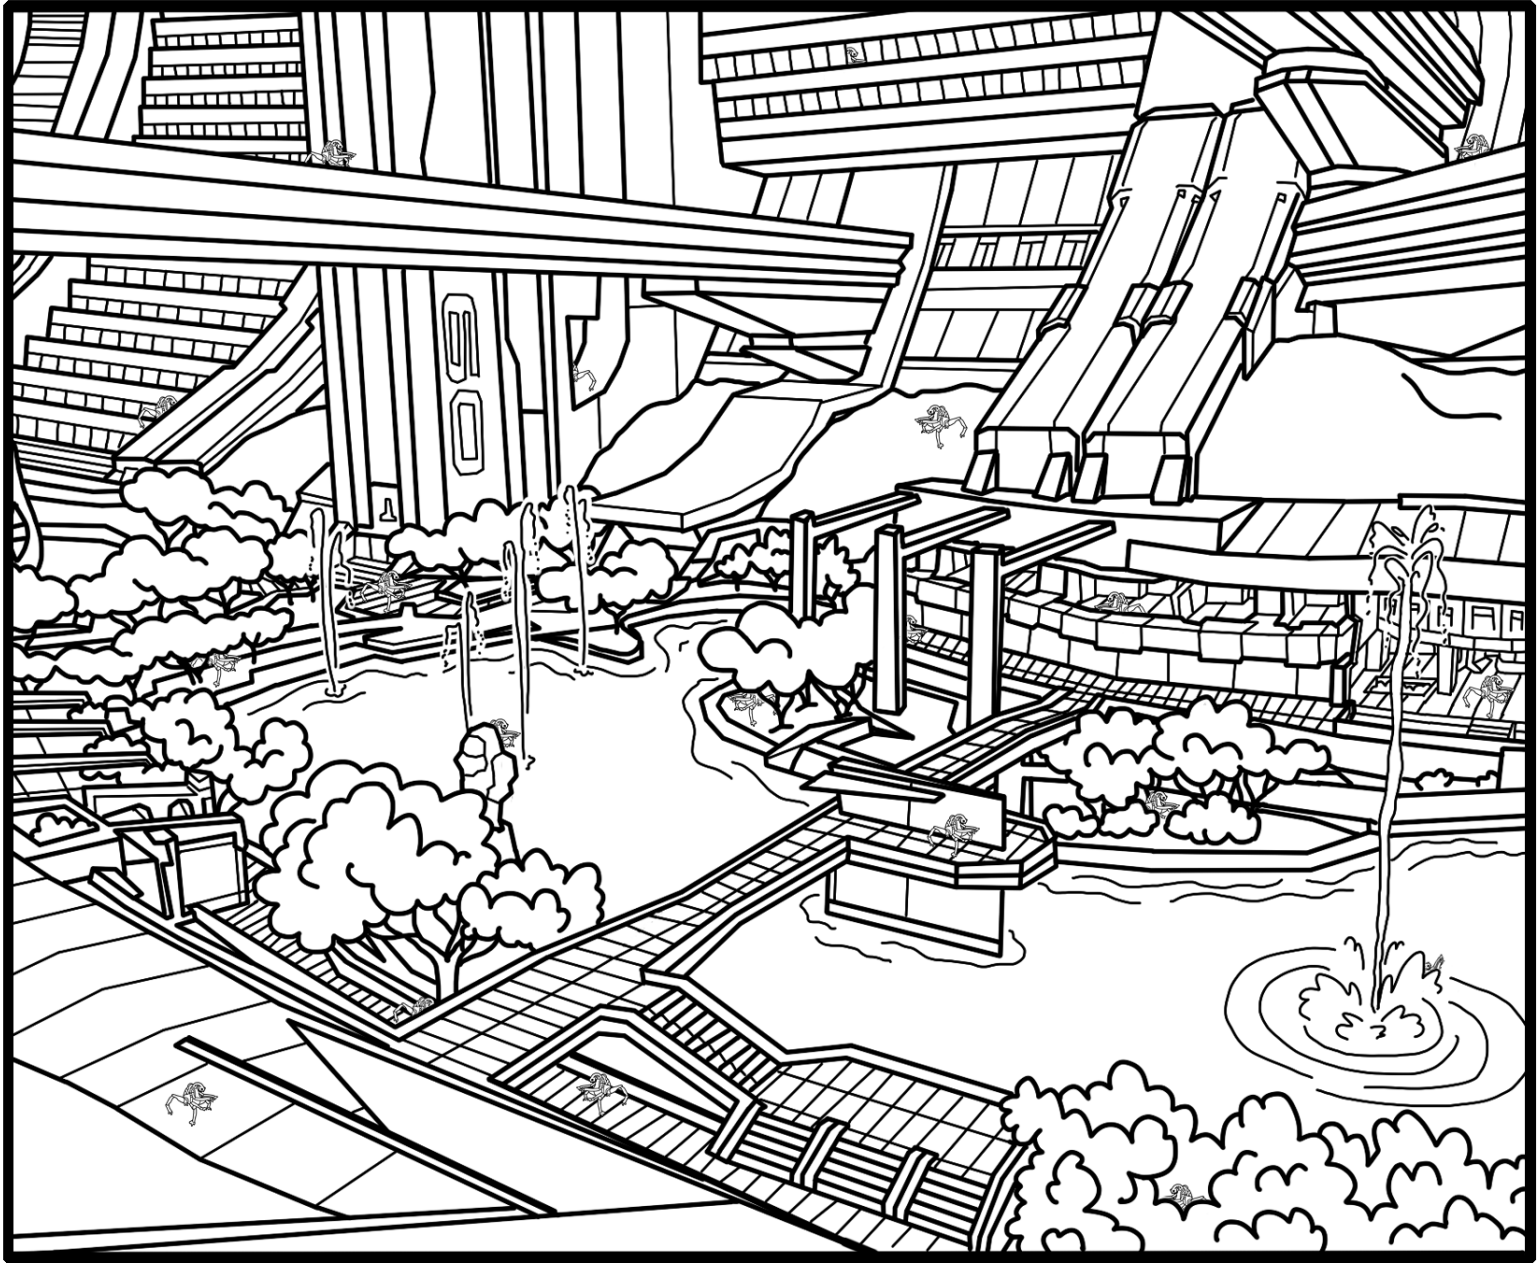

You decide to get yourself injured to give her something to do!

She's a little drunk, but that's okay- you kind of missed your scars. Draw your injuries!

Finding Keepers

The Presidium is a very big place - there are a lot of aliens and creatures there (not fish)! While you are wandering around the place trying to complete as many quests as possible, why not try to find all the keepers there? Can you find all 21 of them?

*** NOTE:**

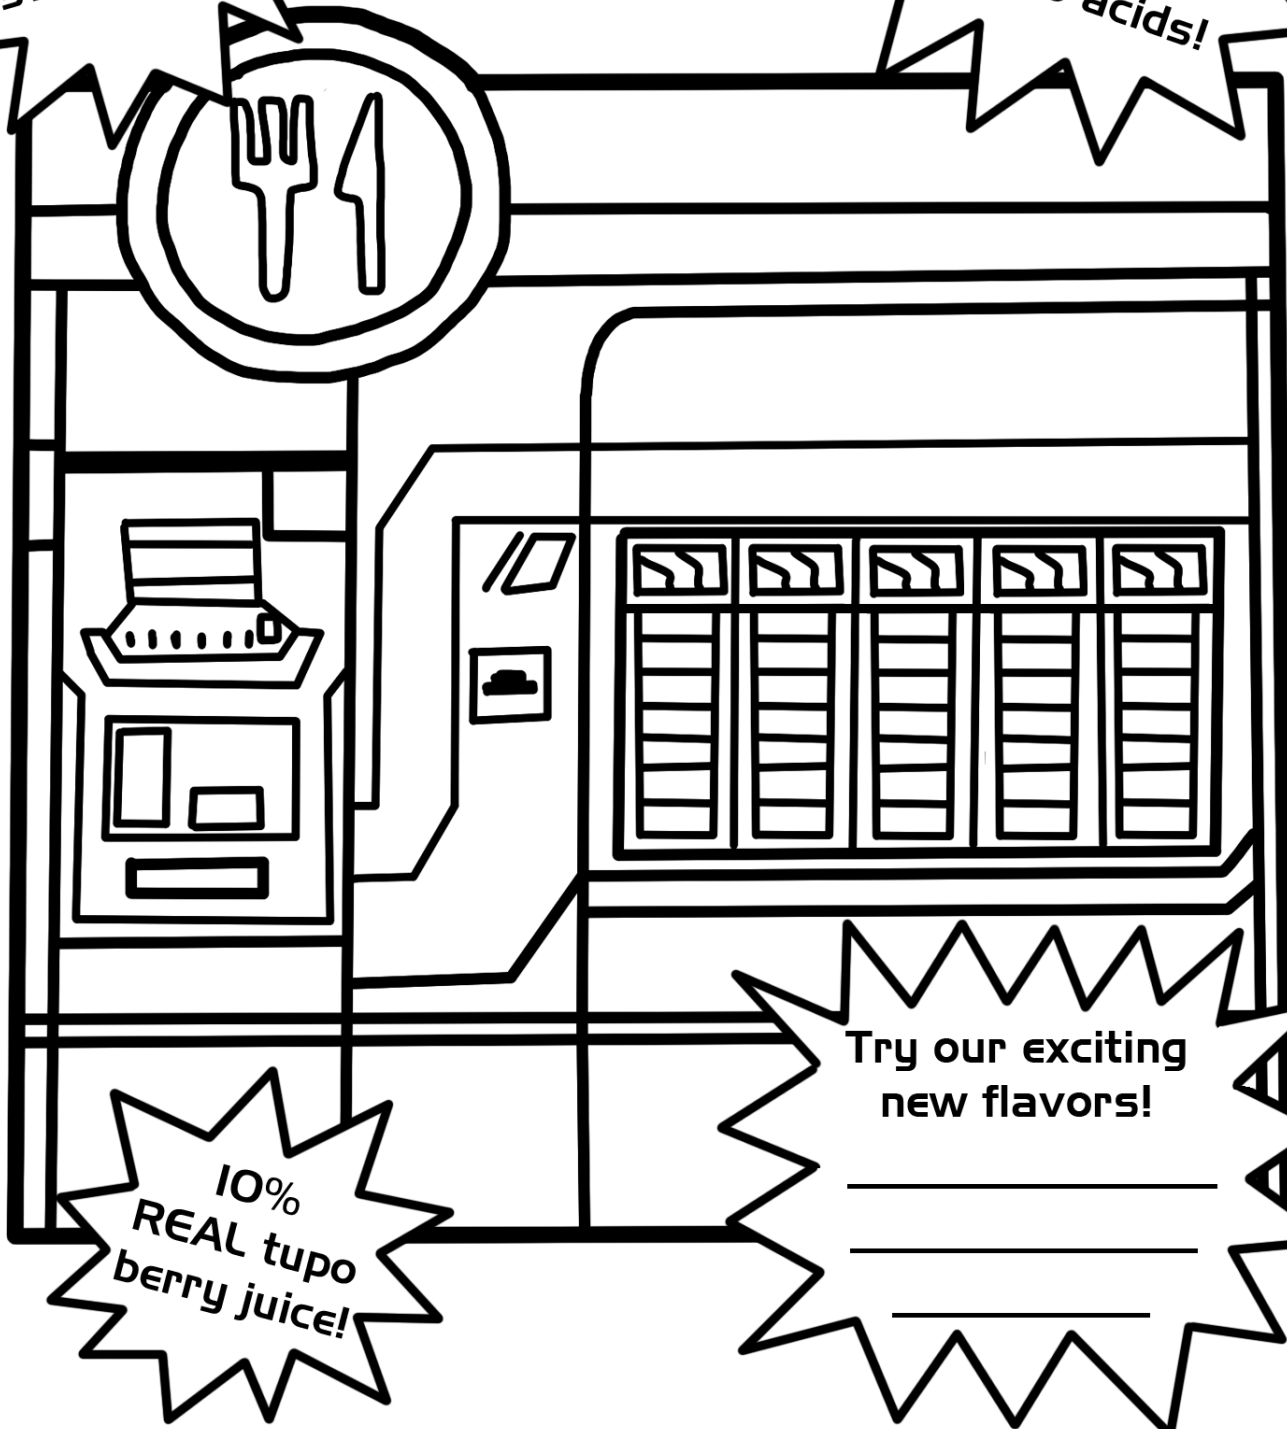

The keeper in the volus/elcor embassy may not appear if you traveled to this page via the rapid transit system. This may also happen if you have visited this page before accepting the puzzle. Typically a quick save and a reload of the coloring book prompts the keeper to re-appear. This keeper can also spawn under the room with a small portion of its antennae protruding up from the floor. It can be found in this state but is very easy to miss.

Drink Tupari

Wouldn't a refreshing, delicious Tupari sports drink hit the spot right now?

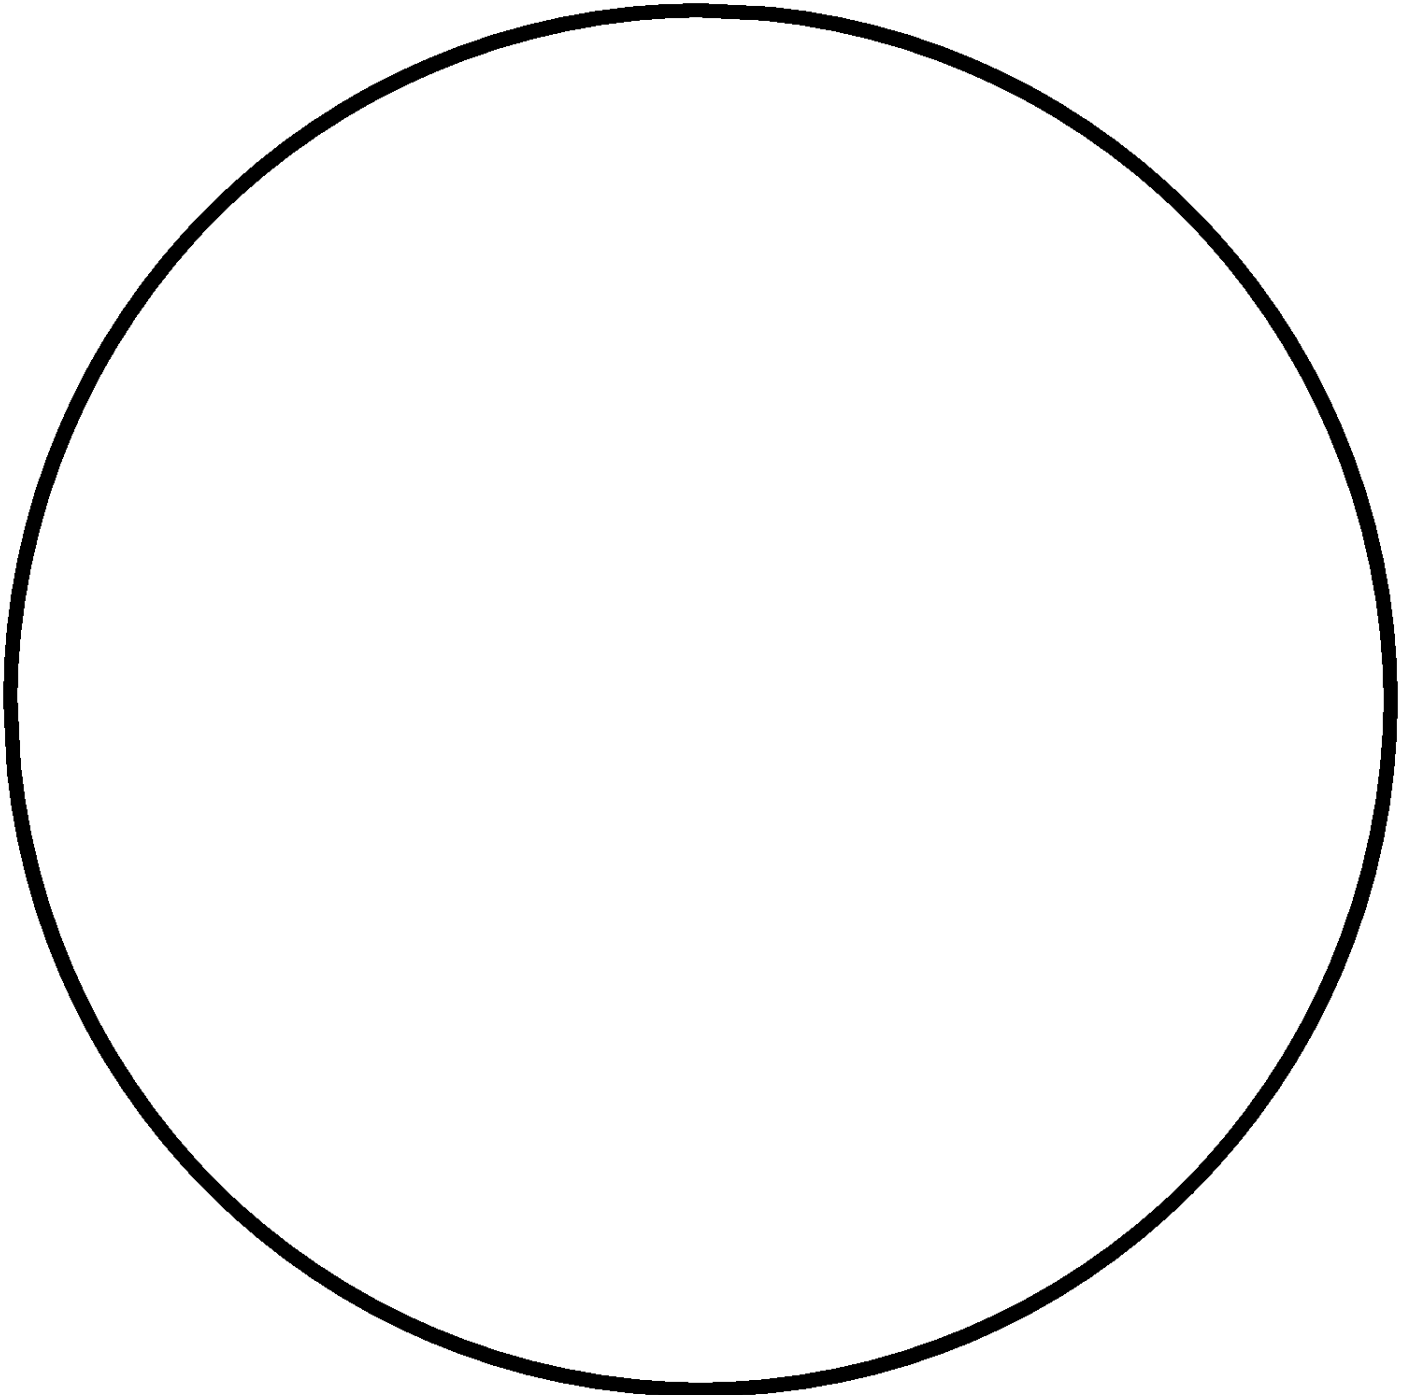

No natural
sweeteners!

Now available
with dextro-
amino acids!

Grand Design

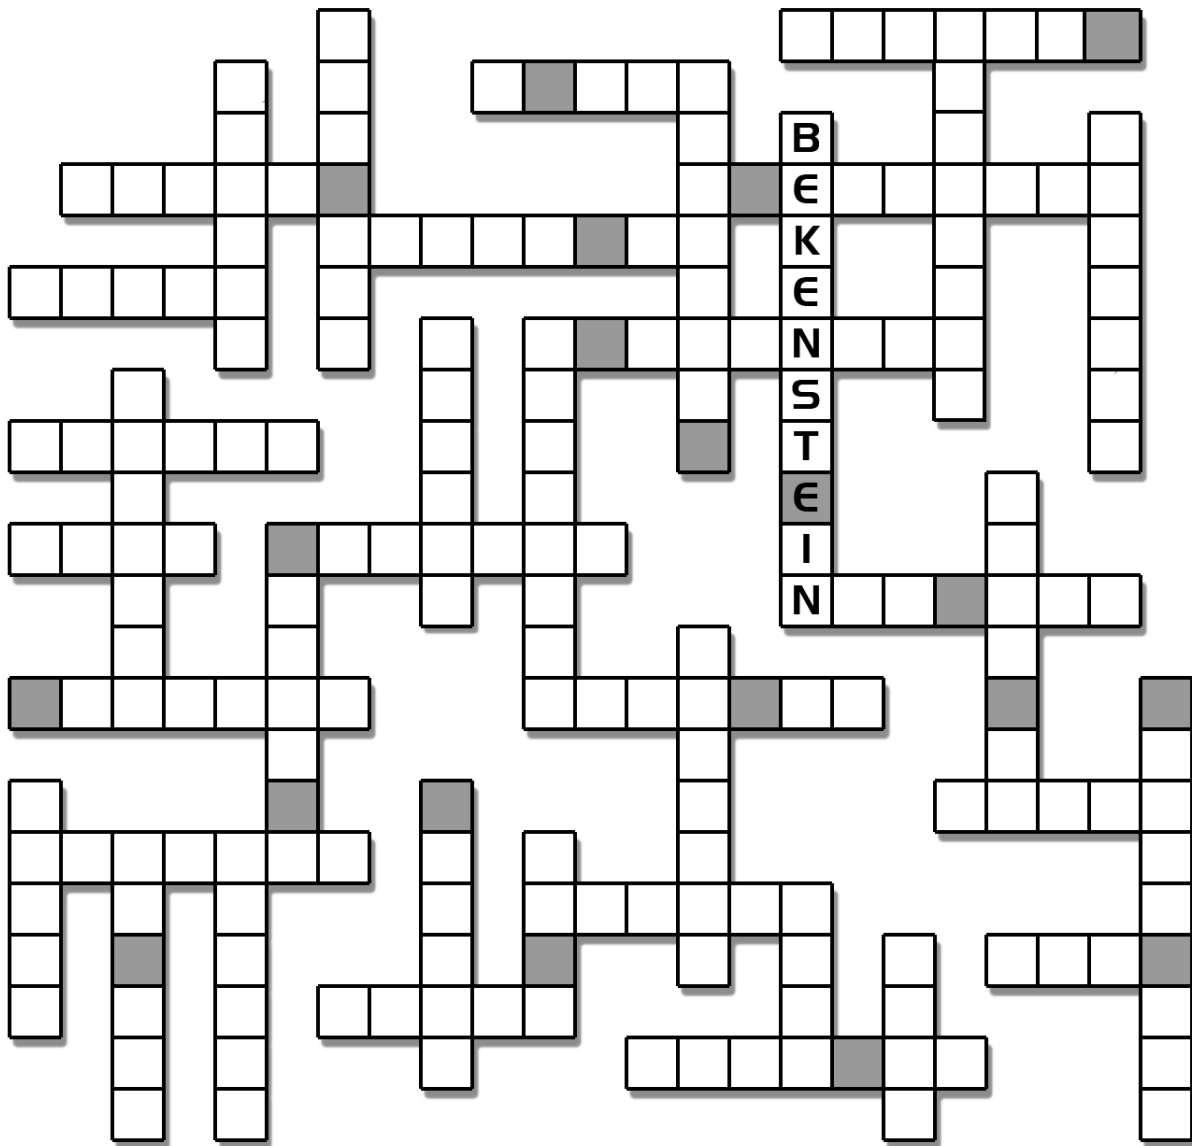

Now is your chance to design your very own planet! There are so many planets in the galaxy, it could look like just about anything. Use your imagination! Don't forget to add lots of mining probes and annoyingly steep mountains!

My planet's name is: _____

Planetary Alignment

The names of these planets (and moons) only fit in the puzzle one way. It's up to you to figure out where they belong. Unscramble the shaded squares to find out the secret message!

Mission Debriefing

The most important part of a project is the evaluation, so you can learn from your mistakes!

Help Cerberus evaluate their projects and improve their operation.

Draw lines from the projects to their outcomes. You can match to as many as you like!

For Science

It seems like anybody in Mass Effect can do experiments! Salarians, krogans, quarians... even all life in the galaxy is engineered by the reapers! Is there anything you are curious about? Now's your chance to design your own! What will do you? Medical study? Evolutionary control? Torture your relatives?

Purpose: To test _____

Why? _____

Your hypothesis: _____

Who or what are your test subjects? _____

(If sentient beings, is their species capable of calculus?) ☐ Yes ☐ No

Where/how will you obtain them? _____

Likely risks to the experiment's success:

How will you "control" your experiment? _____

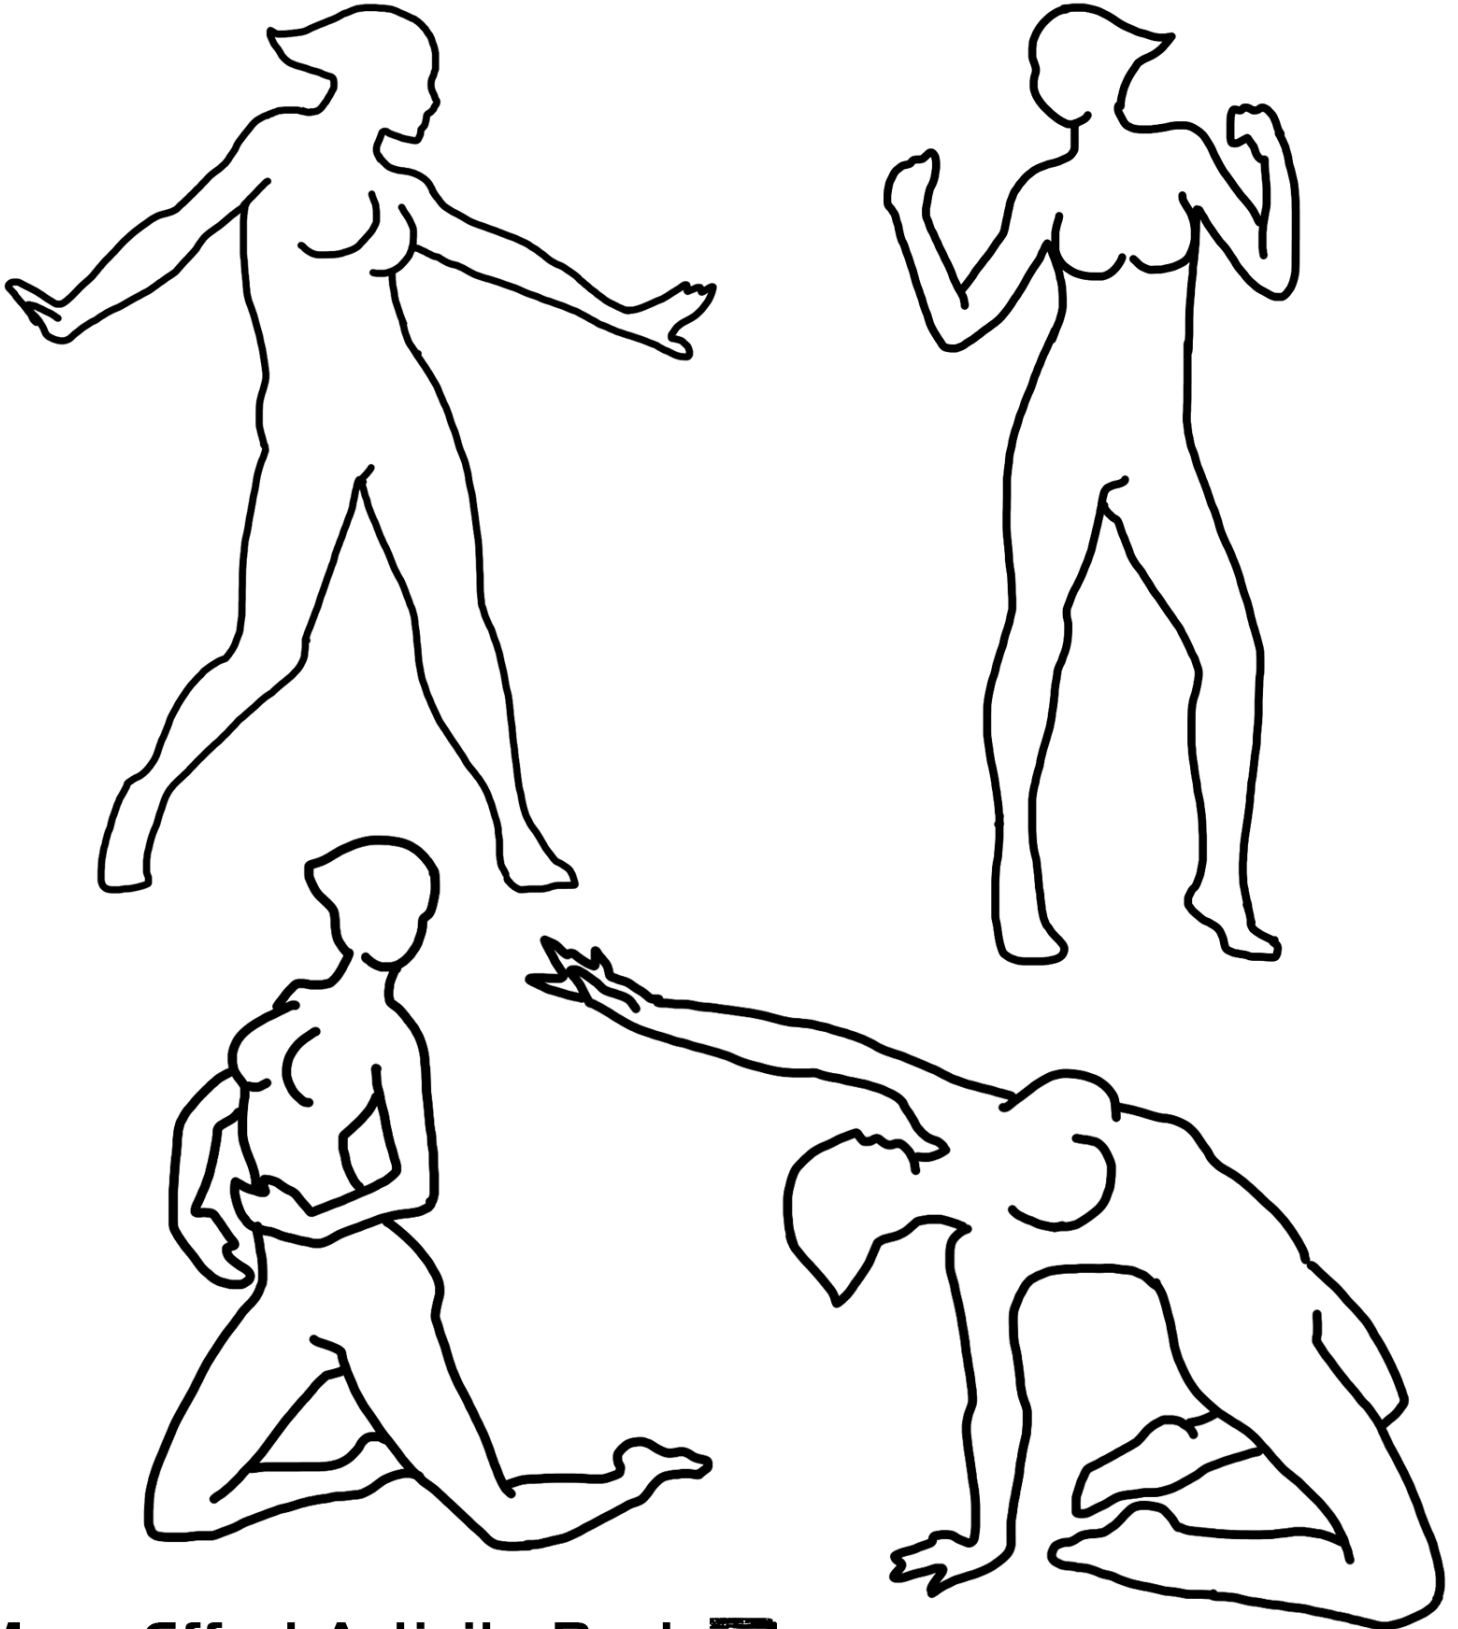

What is your failsafe when things go terribly wrong?

Will this experiment make you famous, get you lots of money, etc?

Aesthetic Diversity

Why do all the strippers in the galaxy wear the same outfit?
Sure it has strategic viewports, but Kelly wants to see some more diversity!
Help the Normandy's resident pole-dancer design some new duds!

Tertiary Puzzle

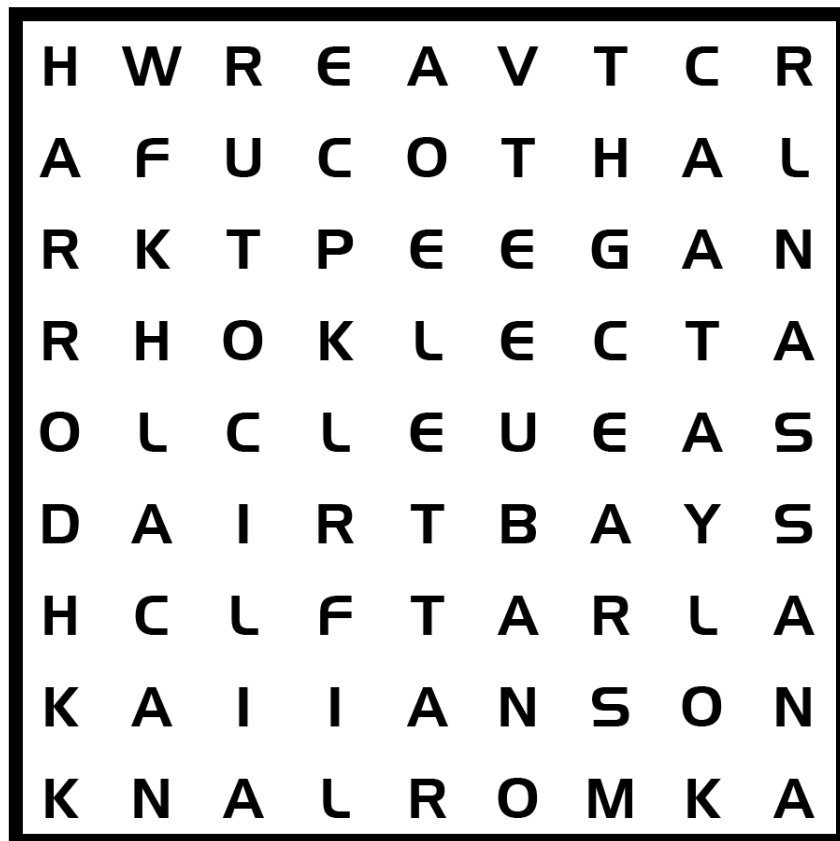

Tertiary characters are a great addition to any game! Comic relief, voice actor cameos, quest-givers and interesting deaths! Sure they're not important, but they're fun!

This is a triple puzzle - first, solve the clue to know who to search for.

Then, find them in the word search. Any direction goes!

Lastly, the unused letters spell a secret message about the ultimate throwaway characters!

1. He got a promotion while you were gone
2. She's got a towering ego
3. You only meet him if you did it wrong
4. This hanar deals below the table
5. He's got a commanding voice
6. He has many fine goods, yes?
7. This biotic is full of wind all right
8. He drives a hard bargain
9. The politest marine
10. This son can't even do a simple job

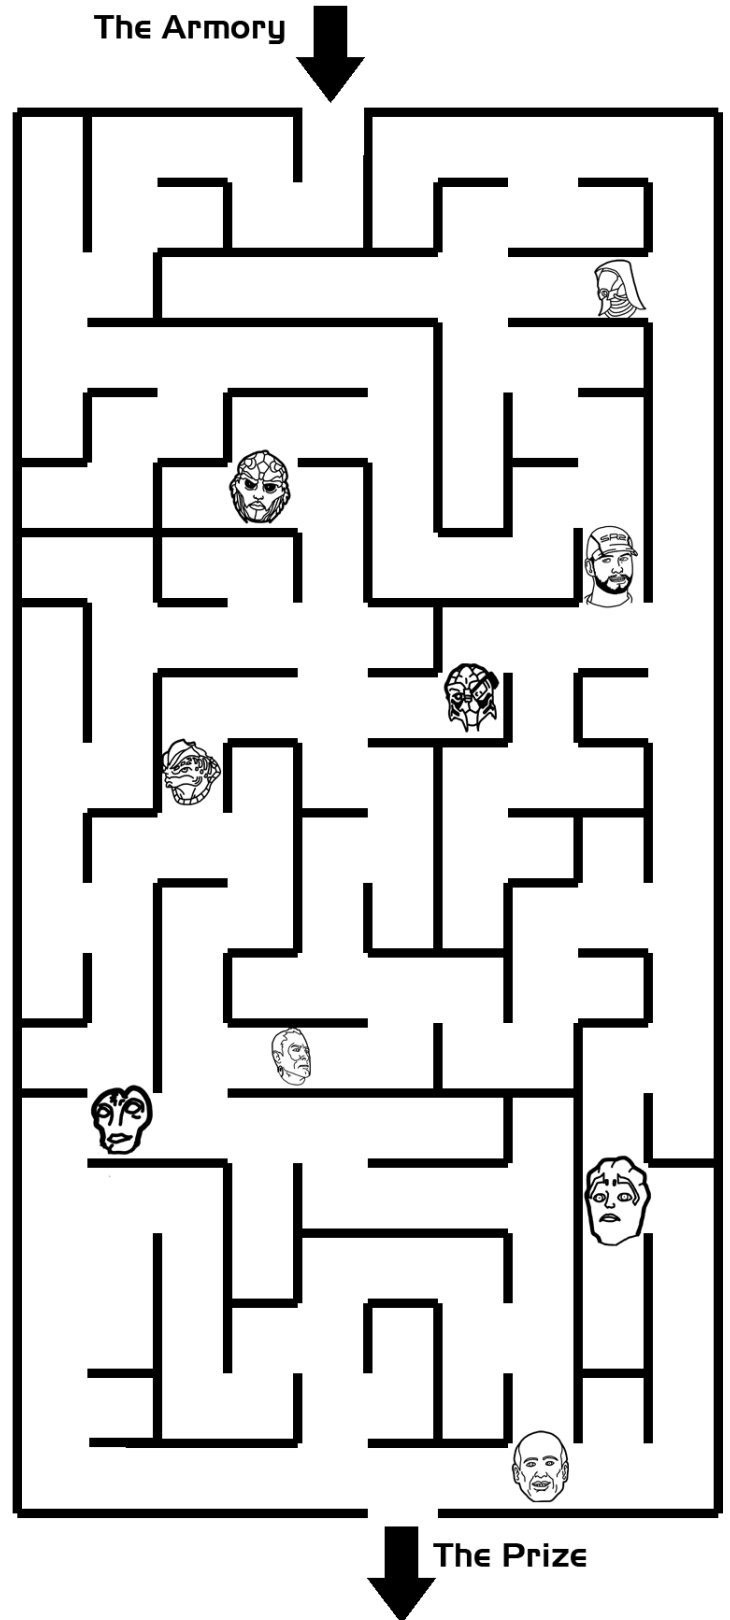

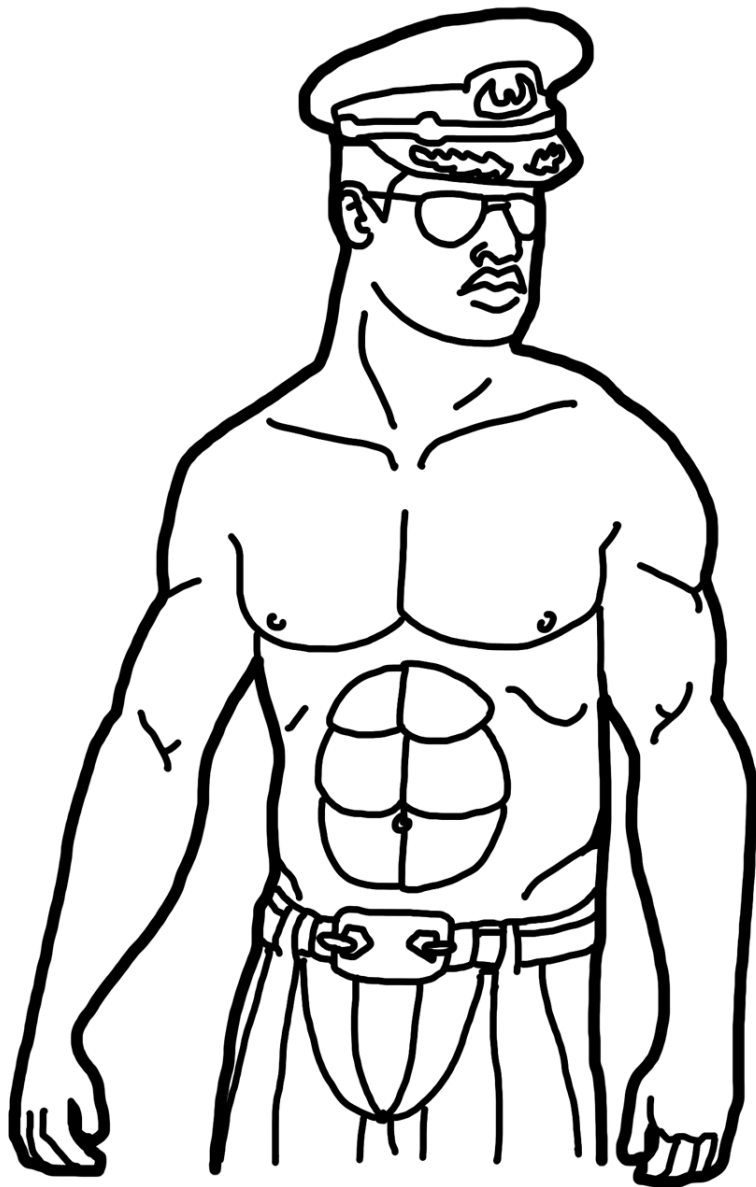

Secret Message: _____

Heavy Risk

But the prize!

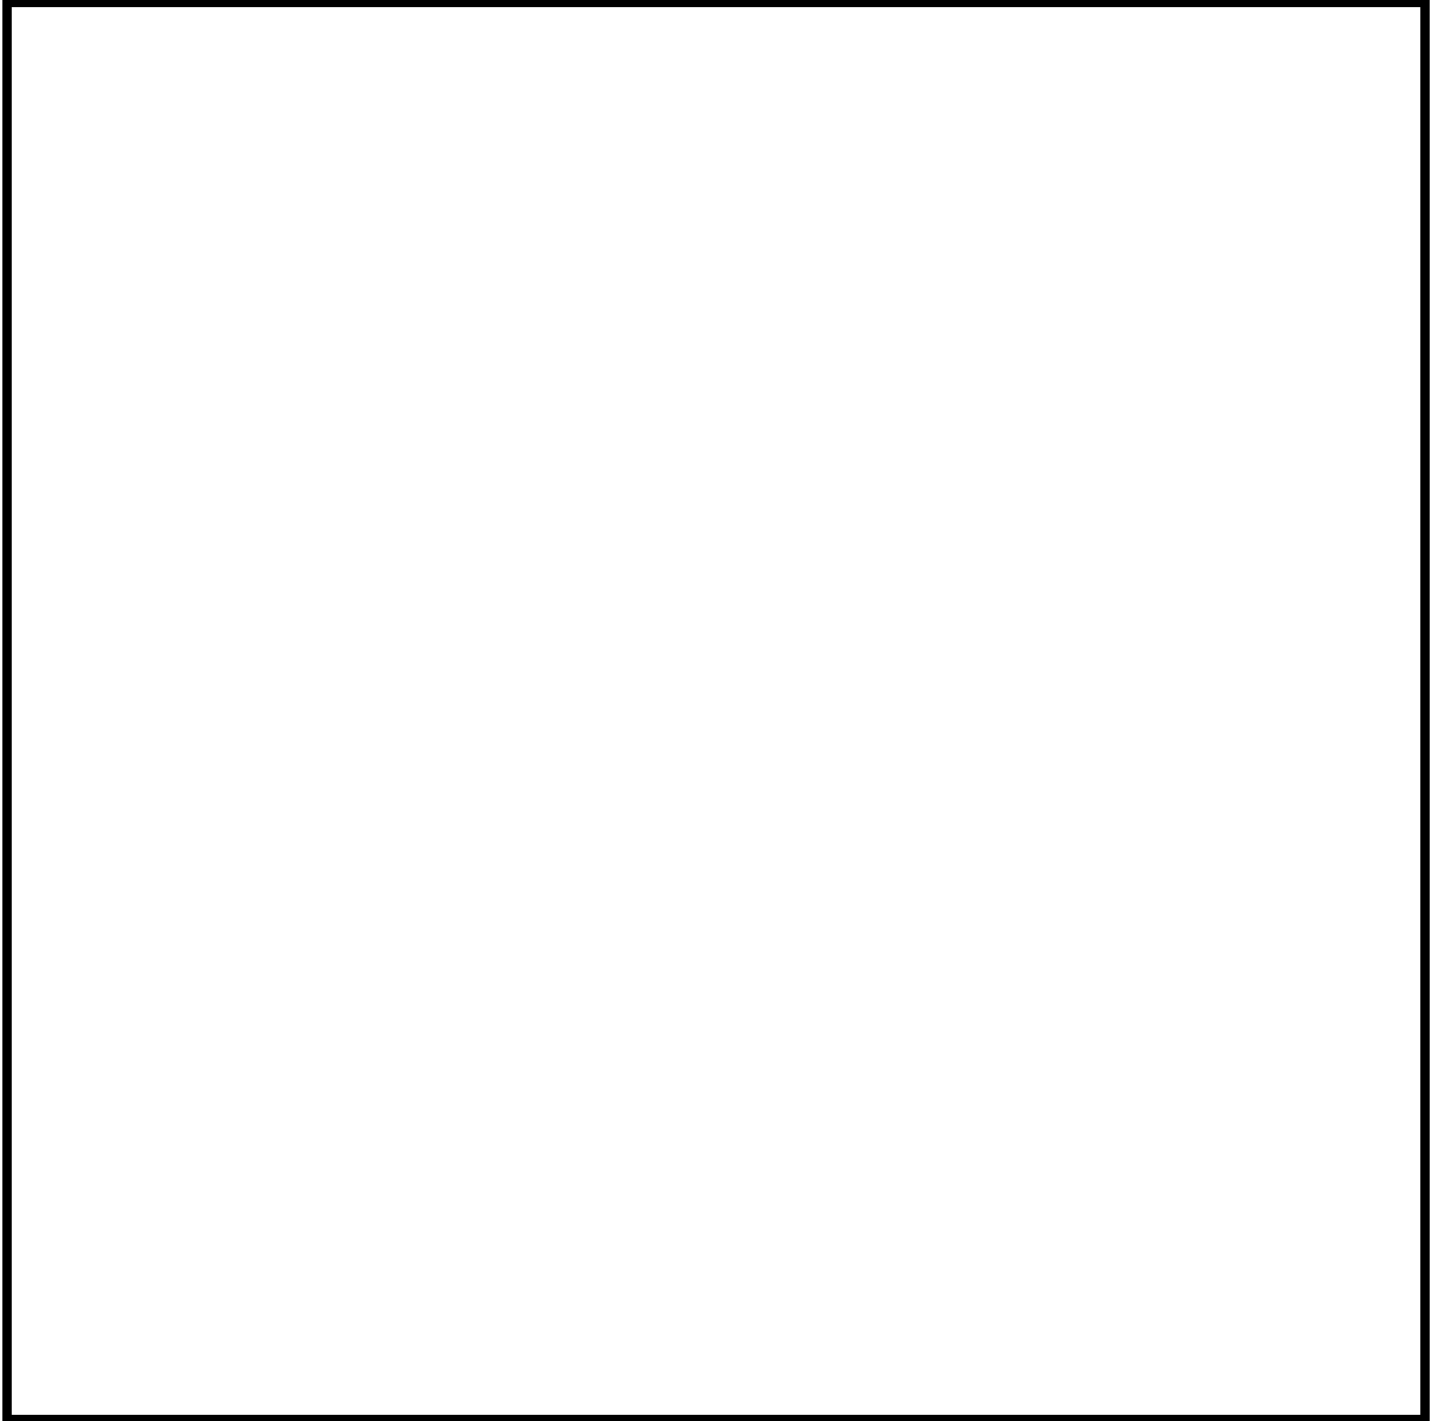

Help Jacob navigate his way to the captain's quarters without running into anybody!

Populating the Planet

An important part of space exploration is colonizing planets! What do you think a space colony might look like? What are the most important things the settlers would need? How might their environment affect them? Draw your ideal space colony!

Have you thought of everything?

Depopulating the Planet

Oh no, your colony is under attack! I hope you planned enough defenses!

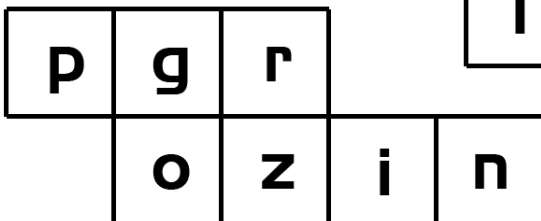

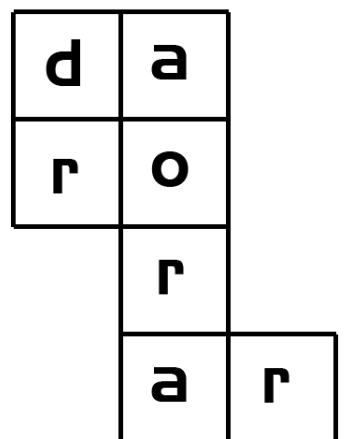

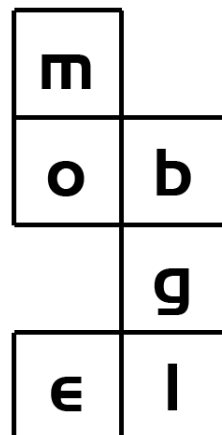

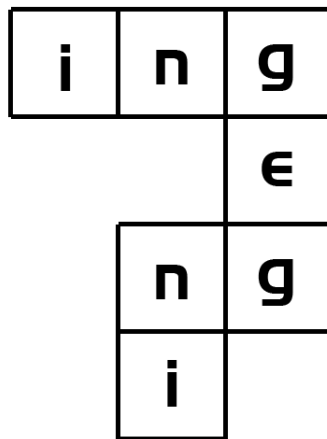

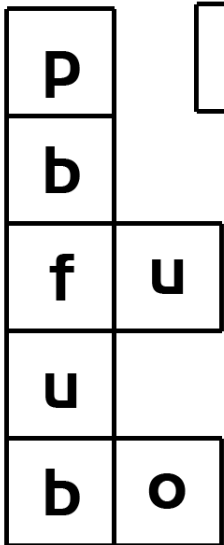

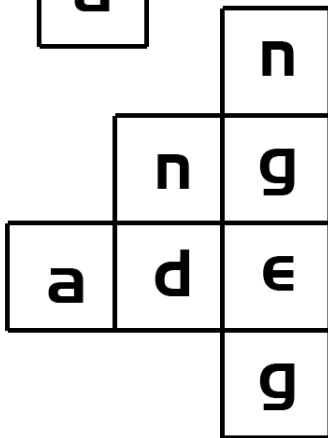

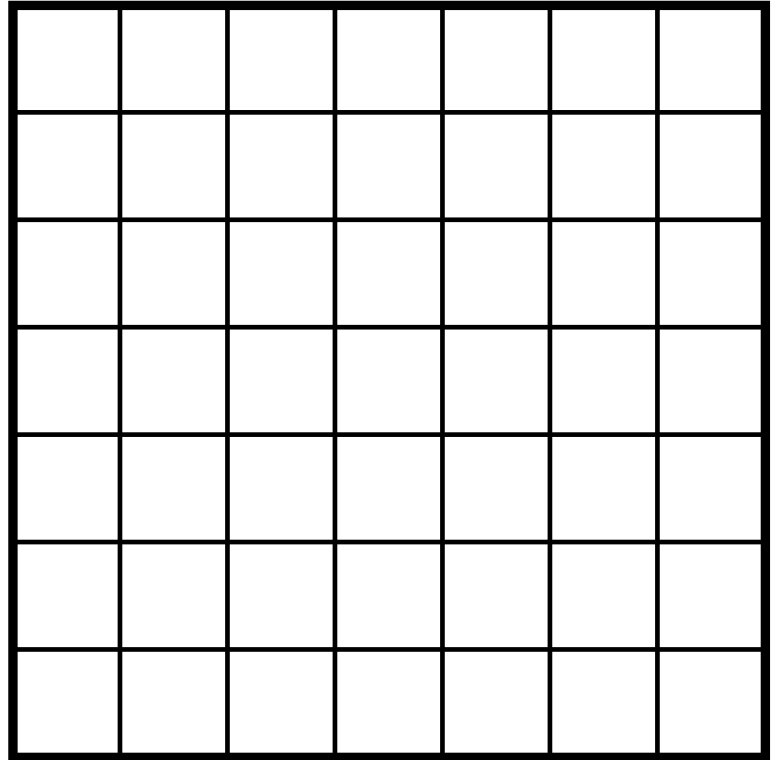

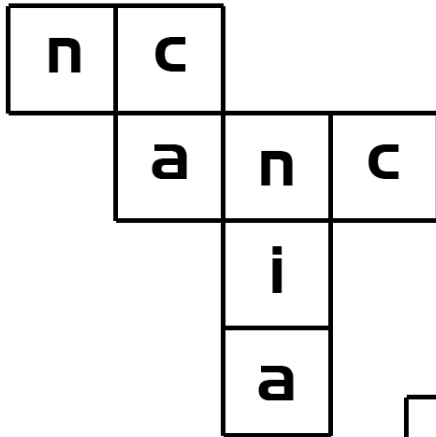

You can't really have too many, galactic colonization can be pretty dangerous.

Maybe you should color these pictures and think about how you might do it better next time.

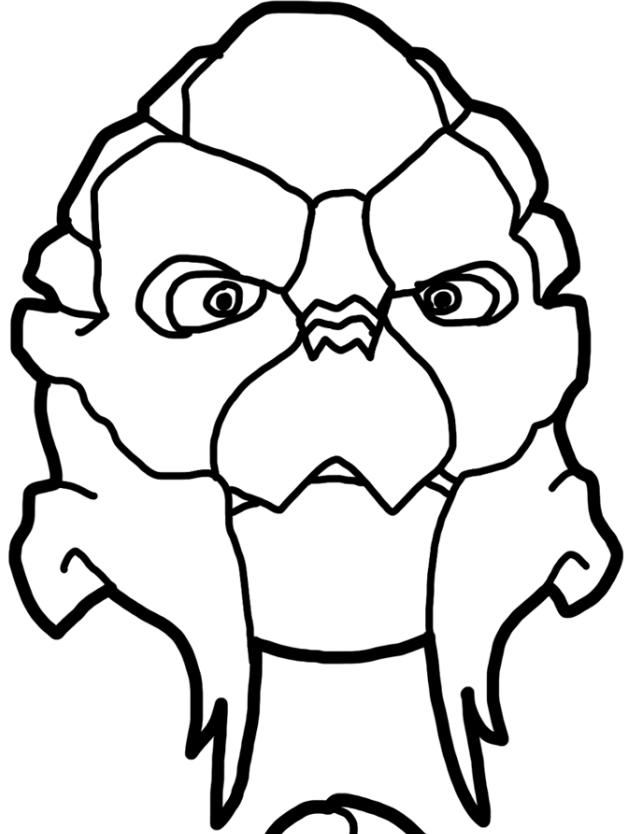

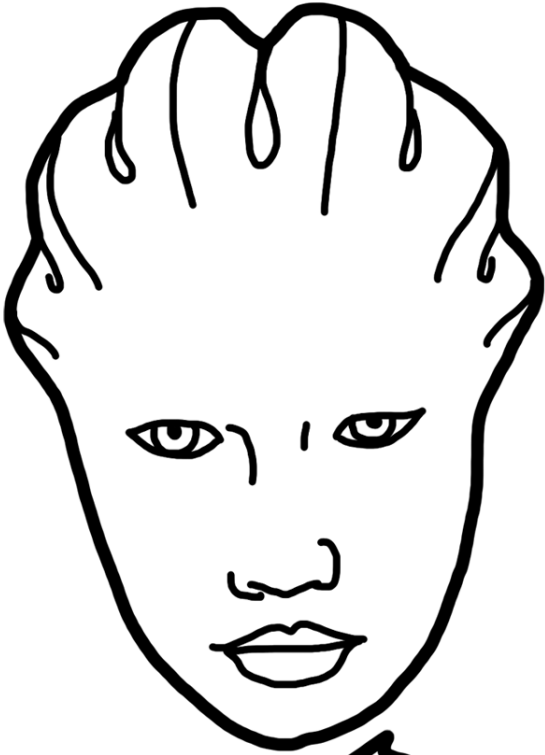

Building Blocks

Saving the galaxy isn't easy. Shepard has to do a lot of things to increase the chances of success! Can you arrange these blocks into their correct positions in the grid so that the rows spell seven very important seven-letter things that Shepard must do to prepare?

Beautiful Freaks

Did you know that the real reason the council hates humans is because they don't use facepaint? It's true! All the cool, important species do it. Even the volus. If you can't join 'em, beat 'em - put some facepaint on these jerks!

Optical Effect

Optical illusions are fun! Try these Mass Effect illusions out!

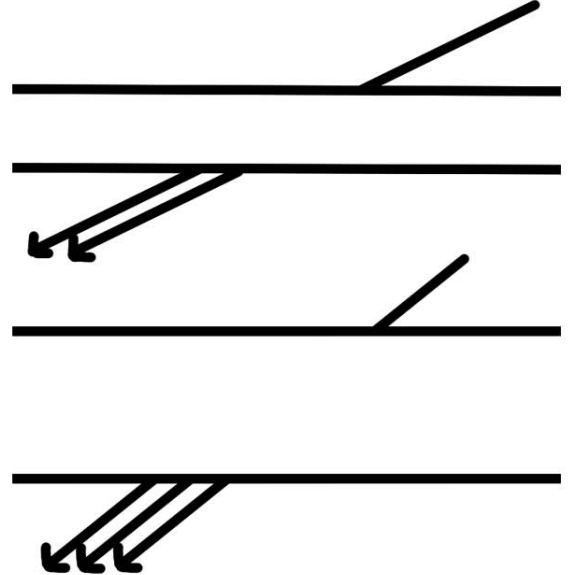

What do you see?

Two krogans or a fountain about
to be double-headbutted?

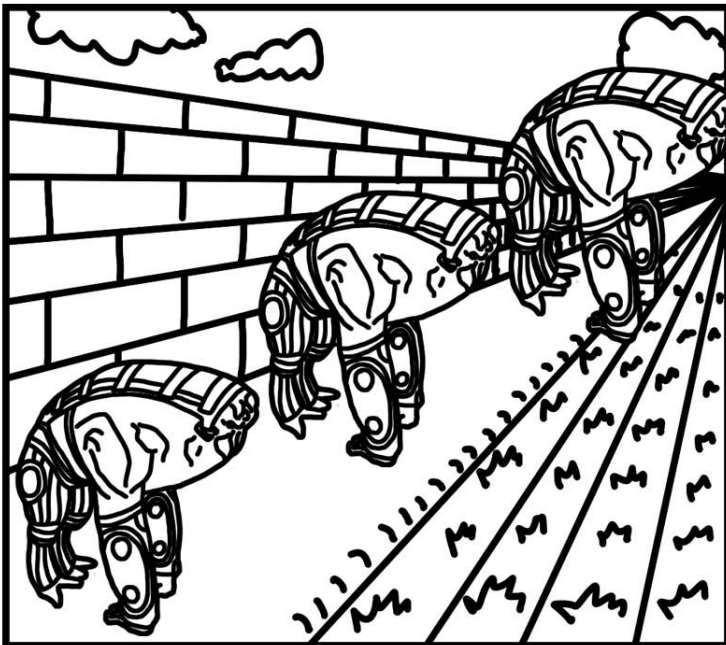

Newton's Arrows

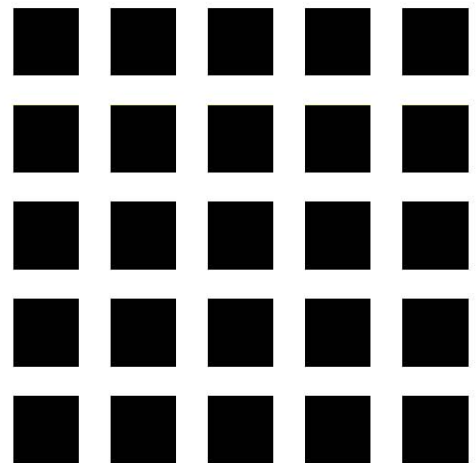

Which arrow makes a straight line?
Don't mess up!

Which elcor is biggest?
Do you really care?

Look closely at this grid.
Do you see the dots?

While you were staring, a
quarian stole your wallet!

Drunken Logic

Kasumi's got a bar, and what's the point of a bar in your room if you're not going to use it? She invited some of her friends around for a girl's night in, and things got a little wild! Can you use the clues to determine who did what, where they woke up, and how many drinks they had? (Kasumi did invite Samara, but she didn't want to come. Booooooring!)

Clues

1. Kasumi got a tattoo, and she had three more drinks than the person who woke up in Thane's bunk.
2. Jack did not lose her shirt (how could she?) but she did have four drinks.
3. Chakwas woke up in Joker's chair, but she did not have five drinks.
4. Miranda had an even number of drinks, one fewer than the person who woke up in Shepard's shower.
5. The person who pranked Zaeed had six drinks.
6. The one who woke up on Omega is the one who kissed Kasumi.

Although no
one has ever
seen one, there
ARE children
in the future

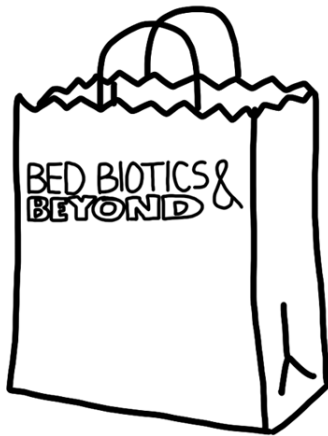

Celestial Vision

Legion told us about the geth releasing news that a certain star cluster held an image of a salarian goddess's face. Aren't you curious? Connect the stars to see what is there!

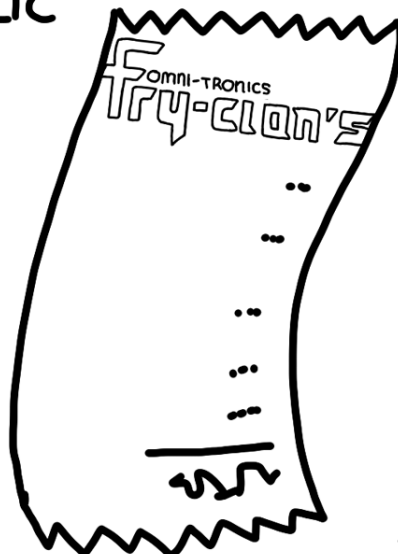

Favorite Stores on the Citadel

Commander Shepard gets a lot of perks - making accusations and throwing your name around can get you some deep discounts! What has Shepard picked up at these fine shops?

You Cannot Solve This, Shepard

Harbinger has a lot of interesting things to say to Shepard, not that Shepard pays any attention! It's a lot more fun to shoot him than to listen. Harbinger left some special messages for Shepard in this puzzle. Using all the letters, without crossing lines or using any letter twice, trace your path through the messages!
